

Spark Digital Showroom™

Order form

Spark Digital Showroom is a visual sales and consulting support tool enabling you to present your customers with the ranges offered by a variety of tile manufacturers. The configurator can be used on a standard PC with mouse and keyboard but the best results are offered by the Spark Touch™ – a 32" or 42" interactive PC touchscreen.

We have compiled an offer for you which includes everything you need. And for an extremely reasonable monthly rental fee. If you wish, you can purchase the touchscreen (32" for EUR 2,080; 42" for EUR 2,780).

Please complete the form and e-mail it to touch@spark-vision.com or fax to 0046 31 708 9801.

We hereby order:

___ pcs. SDS standard version. Licence fee: **EUR 50/month** (min. 12 months)

with the following ranges (please select):

Spark Touch™ PC touchscreen

The Spark Digital Showroom™ configurations are best used on a large interactive screen. The Spark Touch™ PC touchscreen is a comprehensive system – all functions are accessible on the screen which is ready for operation.

Device functions

Spark Touch™ comprises full HD resolution of the LCD screen (32" or 42"). Infra-red touch-sensitive sensors integrated in the frame enable interactive applications. The integrated PC also features all of the requisite functions including: Spark Digital Showroom™, product ranges offered by your suppliers, anti-virus programme, telecontrol software for error detection, driver etc. Network access via Ethernet or wireless USB adapter (included) connected as standard.

The screen features standard VESA brackets on the back for mounting on the wall or showroom furnishings. We also offer high-quality wall brackets or a floor stand as ideal accessories for your SparkTouch™ screen.

Updates

When connected to the Internet, your Spark Touch™ system automatically and regularly accesses the available software updates for the Spark Digital Showroom™ and files them under the corresponding ranges and price information etc. Updates are automatically downloaded and installed in the background with the result that you always avail of the latest information – with minimum effort.

If your Spark Touch™ system does not have an Internet connection, updates can be downloaded on another computer and transferred to the Spark Touch™ system via USB.

Support

If you have any problems with the device, our English-speaking team can provide you with support during office hours (9 am to 7 pm GMT +1), tel. +46 31 706 3702 or mail to support@spark-vision.com. Using telecontrol software, our support

personnel can also log into your system and initiate a remote-controlled search for errors – a service which is very much appreciated by our customers.

The price includes a guarantee and insurance covering all defects to the product which are not caused by negligence, accidents, forces majeures such as lightning etc. Please send your faulty unit to the Spark Vision service centre. Defective units will be repaired or replaced. Freight costs for sending the system to Spark Vision are borne by you while Spark Vision bears the costs of return shipment.

Terms and conditions of sale and delivery

Delivery period: 2-12 weeks. Invoice on delivery. Software licences and support fees to be paid annually in advance. Spark Touch rental fees to be paid six months in advance. This subscription is automatically renewed for one year unless cancelled at least 60 days prior to expiry. Payment conditions: 30 days net. Default interest 12%. All prices subject to VAT. Supplied by the Spark Vision factory, Sweden. Subject to freight fees and freight insurance. The system remains the property of Spark Vision.
